

HEIDEVOLK are the Pagan Metal Brotherhood. These Dutchmen hold up the flag for intelligent and perfectly balanced Pagan Folk Metal like no other.

Marvelous riff power, bombastic ensembles and folkloric tunes make up the amazing album that is "Vuur van Verzet".

Brave chants bring to mind wolf-like bands of warriors, while songs like "The Alliance" send the listener on endless odysseys into the depths of history.

Martial male choirs accompany the hymn of Odin's spear, "Gungnir", while Lars and Jacco shine in baleful duet as sharp as the weapons point.

"Vuur van Verzet" (Fire of Resistance) is a perfect blend of Folk Metal & Pagan Metal fashioned the HEIDEVOLK way.
